## Tutoring Experience

I have had the privilege of working with students from all over the world, including the UK, Canada, and the Middle East, supporting them in IB Maths, A-Level, and IGCSE curriculums. My experience spans across various levels of maths, from beginner concepts to advanced topics like calculus and differential equations.

Over the past 7 years, I've guided students to achieve top results in their exams, helping them master complex areas such as algebra, trigonometry, and calculus. I am passionate about breaking down difficult concepts into simpler, more digestible pieces, allowing my students to gain confidence in their problem-solving abilities.
